

## How to Update the Firmware of AGRAS MG-1S Remote Controller

1. Visit the official DJI website and go to the MG-1S page, download the latest firmware package.
2. Extract the firmware package, and copy the extracted file (AG405\_FW\_XXX\_USER.bin) to the root directory of a Micro SD card.
3. Insert the Micro SD card into the Micro SD card slot of the Remote Controller.
4. Power on the Remote Controller, enter  > Settings > Update, click  > Local Update on the top-right corner. The latest firmware will show on Micro SD card. Click Local Update to start updating.

### Notes:

- DO NOT insert the Micro SD card to a card reader and use the USB port of the Remote Controller to update.
